Using the CP Plus ezykam+ Camera

Full HD Video

Designed to represent an enhanced picture quality in full HD video so that every detail can be viewed with vivid clarity and a pixelated video feed can be avoided.

360° View

Enjoy all-around coverage with a full 360° field of view and smooth 355° rotation. The camera ensures every corner is monitored, leaving minimal blind spots for complete peace of mind.

Human Body Detection

Designed to provide human detection and intelligent alerts, which means only being alerted only when the need occurs as the camera detects people as opposed to animals, passing vehicles, or other inanimate moving objects.

Supports Motion Tracking

Whenever unexpected motion is detected in the video frame, the camera has been devised to rotate automatically to track the movement of people and record it to investigate later.

Privacy Mode On

Privacy Mode

Using privacy mode, you can block the camera view & recording to maintain privacy.

IR Night Vision

Equipped with infrared LEDs that enable the camera to capture clear, monochrome video in complete darkness, ensuring uninterrupted surveillance around the clock.

Built-in Siren

Comes with a built-in siren that activates automatically when suspicious motion is detected, acting as an active deterrent to ward off intruders.

Cloud Recording

Offers secure and encrypted cloud-based video storage, ensuring your recordings are accessible anytime, anywhere, even if the physical camera is tampered with.
