EZ-R31G - 3MP Outdoor Bullet Camera

Standard Security Camera

3MP
Using the CP Plus Ezy4G Camera

3MP Camera

Designed to represent an enhanced picture quality in 3MP camera so that every detail can be viewed with vivid clarity and a pixilated video feed can be avoided.

4G Support

To eliminate the hassle of cables and switches, this camera has been 4G enabled which makes it easier and better to conduct surveillance of any closed space.

Motion detection Alert

Designed to provide motion & human detection and intelligent alerts, which means only being alerted only when the need occurs as the camera detects people as opposed to animals, passing vehicles, or other inanimate moving objects.

Human Body Detection

Designed to provide human detection and intelligent alerts, which means only being alerted only when the need occurs as the camera detects people as opposed to animals, passing vehicles, or other inanimate moving objects.

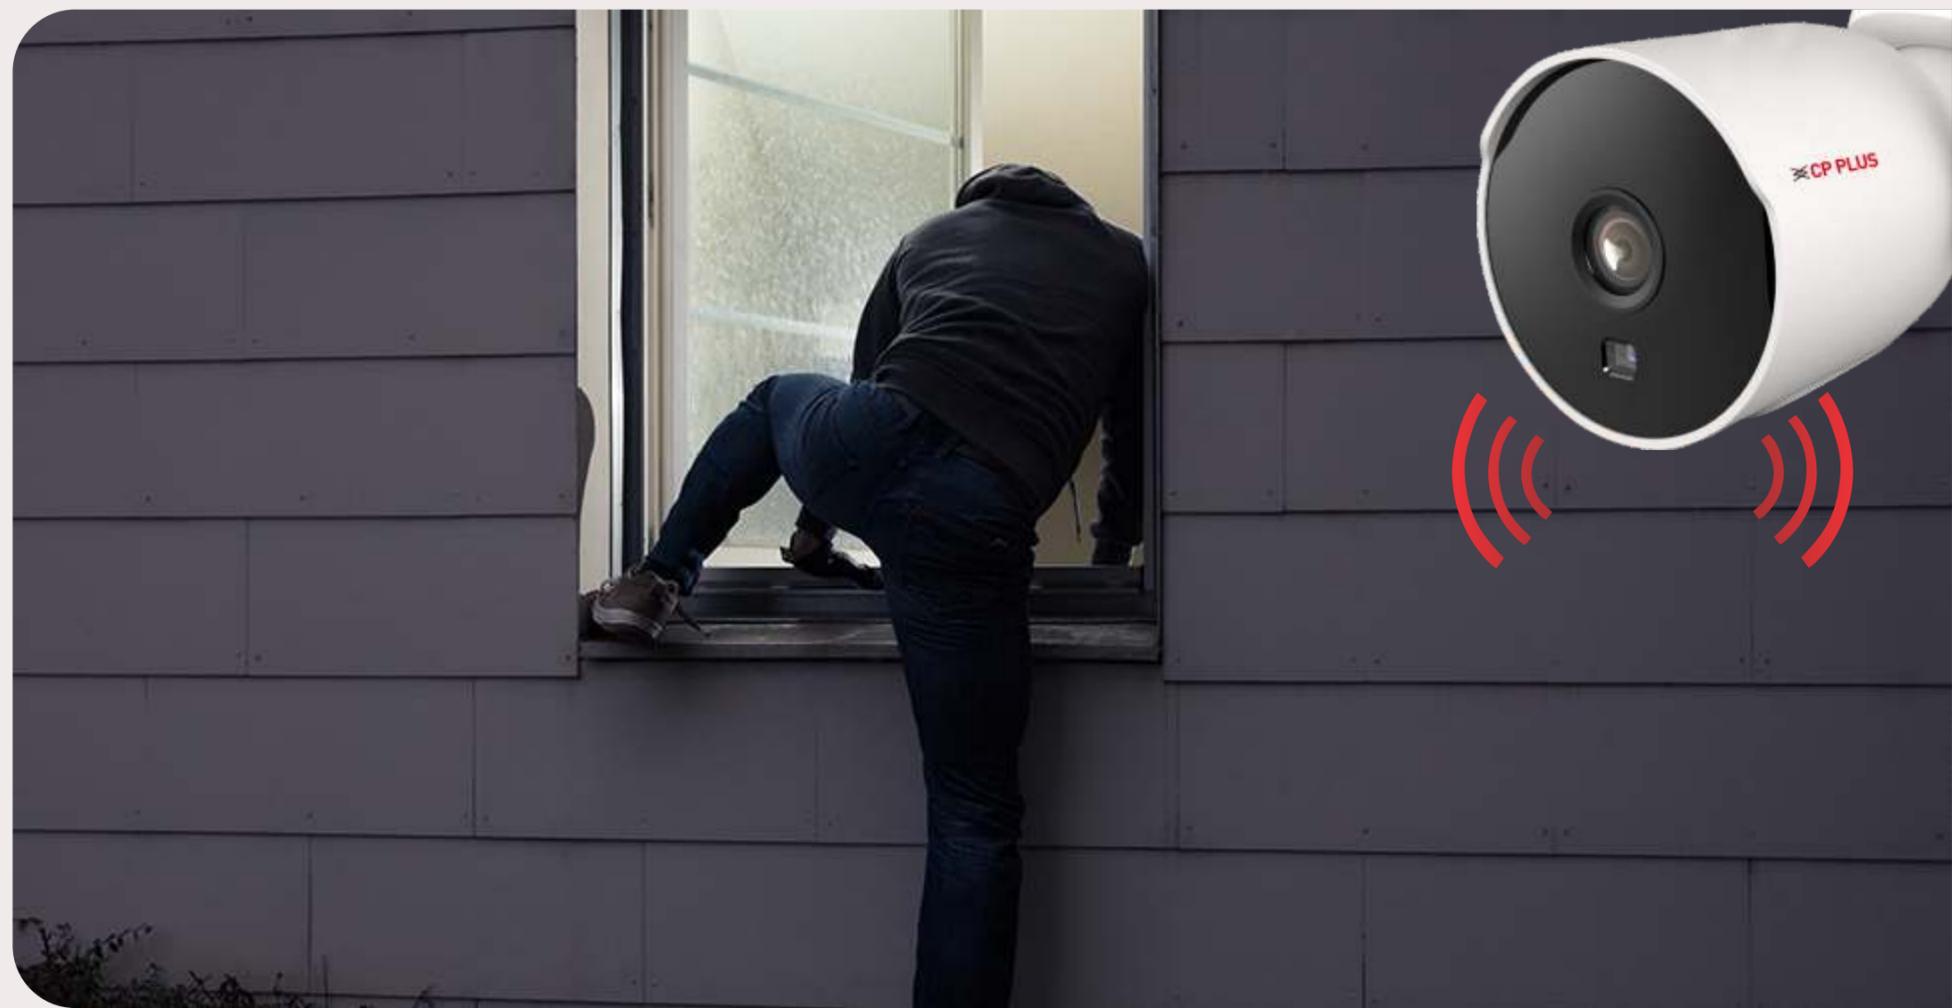

View & Talk

Enables you to stay in touch with your loved ones from anywhere, meaning you can also talk while viewing the live video feed on the phone.

In-built Siren

When the camera detects movements in the video frame, the in-built siren automatically goes off to keep you notified in real-time to help you stop intruders effectively.

Supports ONVIF

Provides device freedom with ONVIF as it supports cross-compatibility with third-party Recorder/Software via ONVIF protocol to enhance native integration. Helps your security system operate seamlessly so that you can mix and match recorders and software for more flexibility.

ezyLiv Mobile App
